

Triumph Group designs, engineers, manufactures, repairs and overhauls a broad portfolio of aviation and industrial components, accessories, sub-assemblies, systems, and aircraft structures. We partner with Original Equipment Manufacturers (OEMs) and operators of commercial, regional, business and military aircraft worldwide, to provide products and services that solve their hardest problems. So, whatever the part, component or complexity of assembly, Triumph Group is committed to quality, service and meeting the specialized needs of each customer.

THE BEST PARTNER FOR YOUR BUSINESS

Triumph Aviation Services Asia, Ltd. (TASA) is the largest independent Maintenance Repair and Overhaul (MRO) facility located in the Free Zone of Amata Nakorn Industrial Estate in Chonburi Province of Thailand which is one of the main aviation hubs of Asia and easily accessible for our customer worldwide.

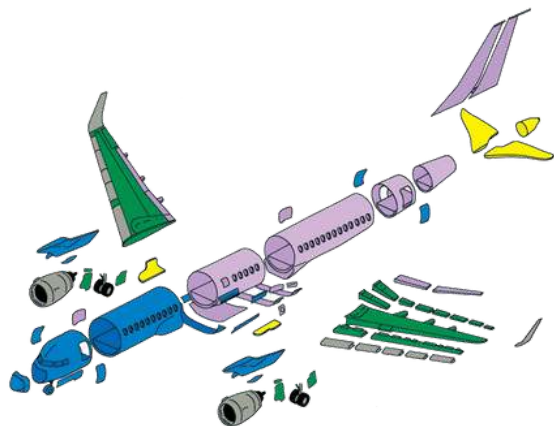

TASA was specifically designed, built and staffed with fully embraced Lean and Continuous Improvement methodologies to provide repair and overhaul services to broad mix of products and customers. Our in-house capabilities include nacelle components, radomes, flight control surfaces, piece-part repairs, CNC machining, autoclave and oven curing, NDT, sheet-metal and composite repairs, wheel and brake overhauls and full pneumatic, electric, hydraulic and fuel accessory component repairs and overhauls.
